... a purely defined art and craft. MAGIC

magic [maj-ik] *the art of influencing events and producing marvels*

Be amazed by the simplest common card tricks, to Houdini like escapes, to the appearance of a motorcycle live on stage!

illusion [i-loo-zuh n] *something that deceives by producing a false or misleading impression of reality*

Discover a place between fiction and reality...a place where physics and rationale no longer apply...where objects appear and disappear right before your very eyes!

hypnosis [hip-noh-sis] *an artificially induced trance state resembling sleep, characterized by heightened susceptibility to suggestion*

Get mesmerized and succumb to crazy suggestions that make ordinary objects appear to be much more!
